

PROJECT REPORT **Bridgewater Church of the Brethren**

CLIENT:	Bridgewater Church of the Brethren
LOCATION:	Bridgewater, Virginia
ARCHITECT:	Moseley Harris & McClintock
CONTRACT:	\$3.9 million
COMPLETED:	June 1998

Special Features: The construction was masonry brick veneer on metal stud construction for the educational wings. Masonry brick with block back up was used in the sanctuary, as well as glue-lam construction. Wood trusses with shingles were used. Exterior finish included architectural precast and EIFS accents. A small basement area for choir practices was included. The sanctuary area included a baptistery and organ loft. A social hall for special events was part of the project. Additionally, an office suite adjacent to the sanctuary was built.
